

GREEN PLANET

Our objectives

Offer a clear definition on the options available to be more environmentally friendly.

are now using...

A

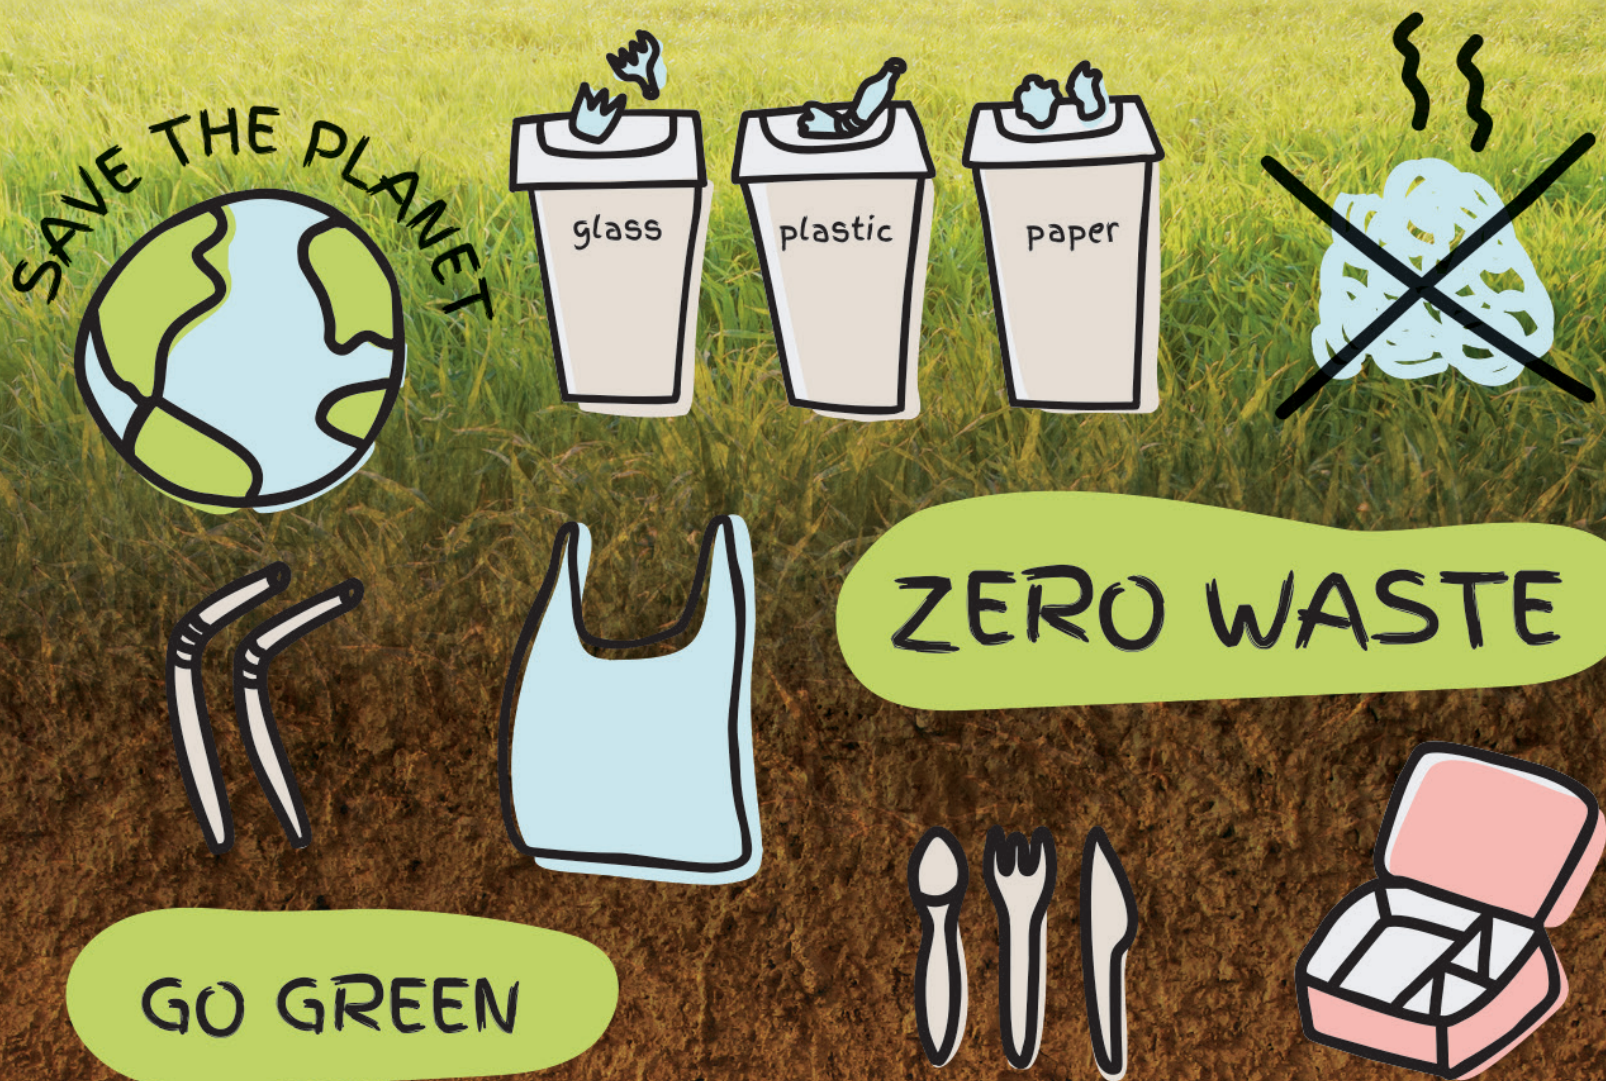

To provide an Eco friendly 'One stop shop' solution for customers in the hospitality sector, giving them the option to choose the right solution for their business.

B

To offer a wide range of sustainable products for the change in eating styles ie Street food, home delivery, food and drinks to go.

C

To be the most reliable source of information on the fast moving legislative changes surrounding packaging, waste material and market trends.

Summary

In a perfect world we would switch everything to reusable.

However the hospitality / catering market needs a mixture of reusable, recyclable and compostable, and the objective of Green Planet is to give you the choice that meets their needs, meets the legal requirements and is the correct solution for their business.

Key

Reusable

Recyclable

Compostable

Biodegradable
